## Latest projects

### TikTok Clone

- Built this full-stack web app using Next.js 13 with TypeScript
- User authorization with Google React OAuth
- Used Sanity.io CMS to store query JSON documents, which is then fetched using Next's API routes
- Ability to like and comment on user posts

https://tiktok-clone-kohl-ten.vercel.app/

### ChatGPT Clone

- Built using Next.js 13 with TypeScript, Firebase, SWR, Tailwind CSS, and OpenAI API
- Utilized SWR for efficient data-fetching amongst different components
- Used Next Auth and Firebase Auth to handle Google authentication
- Hosted and deployed on Vercel via the Vercel CLI.

https://chatgpt-messenger-clone-rho.vercel.app/

### CannaDiscount

- Built, designed and maintained a website with a partner for CannaDiscount using Elementor
- Meeting with the prospective clients to review website, and gather the client's specifications for the project
- Designed and implemented HTML email templates and newsletters for marketing campaigns

https://cannadiscount.cc/

### Fairy Dog Mama

- Migrated from WIX to WordPress, updating the site's appearance and functionality; now in-charge of administrating the website
- Collaborated with a partner web developer to redesign a WordPress website for Fairy Dog Mama using Elementor, making it responsive for mobile devices therefore increasing customer engagement
